COUPLES THERAPY

When Should Couples Consider Therapy?

You don't wait until the foundation cracks to repair the roof. Don't wait until the relationship is in crisis to invest in it.

You don't have to be in crisis.

Couples therapy is for couples who want to grow — not just for those on the brink. Some of the most powerful sessions I've witnessed were with couples who were 'fine' but knew they could be better.

Signs it might be time.

The same arguments loop without resolution. Emotional distance feels normal. Resentment has quietly moved in. These patterns deserve attention before they harden.

What therapy actually offers.

A neutral space. New tools. A trained witness to your commitment. Research is clear: couples therapy works — but the sooner you come, the more there is to work with.

Your relationship is worth investing in.
